Conformity

This certificate attests that all internal rules (QA/QC) concerning production (IPC), including testing of specimens from the production according to a prescribed test plan in accordance with the relevant properties, meets the generic inspection standards. The ongoing inspection and reporting are continuously connected to this certificate. Use of the TÜV logo is permitted.

Period of validity

This certificate was first issued on 06-10-2015 and remains valid as long as the conditions as laid down in the product specifications, the methods, the production instructions and the conditions of use do not change significantly, and the product is permanently meets the legal requirements through self-declarations by the manufacturer and that this certificate has not been suspended or revoked. It is the responsibility of the manufacturer to investigate what other national legislation or European regulations are or may be applicable to the above product. Product liability rests entirely with the manufacturer. The validity of the certificate can be requested via <https://www.tuv.nl>. Changes that may affect the validity of the certificate must be communicated by the manufacturer to the TÜV in writing as an obligation.
